

## Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

4. Separate water-closet accommodations for each sex, approved by the department of health, must be provided, constructed, and maintained so as not to cause a nuisance or to contaminate the water used by bathers.

5. Proper and adequate facilities, approved by the department of health, must be provided for sterilizing bathing suits, towels, shoes, stockings, caps, or other articles which may be used by or hired to patrons of the establishment. All such articles that have been so hired or used must be sterilized before again rehiring or permitting the use of the same.

6. Bathhouses and the premises on which the bathing establishment is located must be maintained in a cleanly and sanitary condition.

7. The rules of the department of health governing bathing establishments must be kept posted in a conspicuous place in said establishment.

#### **Camps—Sanitary Regulation. (Reg. Bd. of H., Apr. 21, 1914.)**

1. *Water supply.*—(a) An adequate supply of drinking water must be provided on camp grounds; at least one tap provided for every four tents; said taps must be so arranged as to be easily accessible to occupants of tents. Water from wells other than public water supply can not be used without a permit from the board of health.

2. *Disposal of waste liquids.*—(a) Waste liquids shall be disposed of so as not to create a nuisance.

3. *Privy accommodations.*—(a) Sewer-connected, water-supplied, properly flushed water closets shall be provided where sewer connections are possible.

(b) Where sewer connections are not possible, dry-earth system must be used.

(c) Where dry-earth system is used the privy house and appurtenances shall be so constructed that the platform on which privy cans are set shall be at least 4 inches above the surface of the surrounding ground; said platform to be of nonabsorbent material.

(d) Privy house must be provided with sufficient seats, and seats must be provided with tight covers and closed when not in use.

(e) Privy houses must be constructed and arranged so as to prevent saturation of same by filthy liquids.

(f) Privy houses must be adequately ventilated and properly screened and protected against flies.

4. *Garbage and refuse disposal.*—(a) All garbage and refuse must be stored in metal cans with tight covers.

(b) Garbage must be removed daily from premises before 8 a. m.

5. Premises on which tent, camp, or bungalow is located must be owned by applicant, or proof furnished that premises are occupied by permission of or under lease from owner.

#### **Stationary Pool Baths Using Water Other Than River Water—Sanitary Regulation. (Reg. Bd. of H., Apr. 21, 1914.)**

Stationary pool baths using water other than river water must comply with the following requirements before a permit to maintain a bathing establishment will be granted by the board of health:

1. The pools, plungers, and mikvers must be emptied daily, and the bottom and side walls of same thoroughly scrubbed before refilling. The water of the pool must be maintained in a condition suitable for bathing purposes at all times.

2. Adequate toilet accommodations and shower baths approved by the department of health must be provided.

3. All waste water from showers, tubs, dressing rooms, water-closets, sinks, and platforms must be discharged outside the pool.

4. The floors of bathrooms must be made impervious to dampness. The side walls of bathrooms must be painted with two coats of white enamel paint, or covered with a nonabsorbent material, for a height of at least 6 feet above the floor.

5. When mats are used they must be made of rubber.

6. Stairs and stair supports leading to pools must be made of metal, stone, or cement.

7. All cushions and mattresses must be covered with nonabsorbent material.

8. Clean towels must be provided for each person. All such articles after being used must be sterilized before again permitting the use of same.

9. Persons suffering from any form of contagious, communicable, or infectious disease must not be permitted to enter or use the bathing pool.

10. Every bather, before being allowed access to the pool, shall be required to take a cleansing shower, preferably in warm water and soap, and should be required to use the toilet accommodations.

11. Bathers should not be permitted to commit any form of nuisance in the pool.

12. The rules of the department of health governing bathing establishments must be kept posted in a conspicuous place in said establishment.

#### **Floating Baths and Stationary Pool Baths Using River and Bay Water— Sanitary Regulation. (Reg. Bd. of H., Apr. 21, 1914.)**

Floating baths or stationary pool baths using, for bathing purposes, the waters of the Hudson, East, or Harlem Rivers, or New York Bay above the Narrows, must comply with the following requirements before a permit to maintain a bathing establishment will be granted by the board of health:

1. The bathing pool must be maintained water-tight, so as to prevent contamination of the contents of the pool by external sources.

2. All waste water from showers, tubs, dressing rooms, water-closets, sinks, and platforms must be discharged outside the pool.

3. The water of the pool must be maintained in a condition suitable for bathing purposes at all times. Where river or harbor water is used, it must be filtered through sand or other mechanical means of separation, and then be so treated by the use of hypochlorite of lime, ultra-violet rays, or other means as to render it clean and sanitary.

4. Persons suffering from any form of contagious, communicable, or infectious disease must not be permitted to enter or use the bathing pool.

5. Adequate toilet accommodations and shower baths approved by the department of health must be provided.

6. Every bather, before being allowed access to the pool, shall be required to take a cleansing shower, preferably in warm water and soap, and should be required to use the toilet accommodations.

7. Bathers should not be permitted to commit any form of nuisance in the pool.

8. Proper and adequate facilities approved by the department of health must be provided for sterilizing bathing suits, towels, shoes, stockings, caps, or other articles which may be used by, or hired to, patrons of the establishment. All such articles after being so hired or used must be sterilized before again rehiring or permitting the use of the same.

9. The rules of the department of health governing bathing establishments must be kept posted in a conspicuous place in said establishment.
